SUMMARY

Aspiring Developer and fresher with hands-on knowledge of Python, HTML, CSS, and SQL. Strong foundation in programming, problem-solving, database concepts, and teamwork. Gained practical exposure through personal projects, including developing responsive web pages and working with databases. Eager to learn new technologies, improve technical skills, and apply my knowledge to build user-friendly and efficient applications while contributing effectively to a professional team.

EDUCATION

B. Tech in Data Science | 2023 – 2026

CBIT (Autonomous), Proddatur, Andhra Pradesh, India

Diploma in Mechanical Engineering | 2020 – 2023

Sri Vidyanikethan Engineering College, Tirupati, Andhra Pradesh, India

Secondary School Certificate (SSC) | 2019 – 2020

Sri Chaitanya English Medium High School, Vempalli, Andhra Pradesh, India

SKILLS

Programming	: Python, OOPs
Web Technologies	: HTML, CSS
Core Concepts	: OOP, Data Structures, RAG
Frameworks & Tools	: Streamlit, PyMuPDF, ChromaDB, Ollama, VS code
Databases	: MySql
Personal Skills	: Time Management, Adaptability, Communication Skills
Interests	: Reading Books
Languages	: English, Telugu

PROJECT

E-commerce

- Built using **HTML**, **CSS**, and **JavaScript**.
- Displays **products** with images, names, and prices.
- Features a **clean, responsive, and beginner-friendly** design.

Multi-Document Company Knowledge Assistant | Python, RAG, Streamlit, ChromaDB, Ollama

- Built a multi-document **RAG application** using Streamlit, enabling users to upload and query PDF documents.
- Processed PDFs with **PyMuPDF**, generated embeddings using **all-MiniLM-L6-v2**, and implemented semantic retrieval with **ChromaDB**.
- Integrated **Qwen3:4B via Ollama** for grounded answers with PDF/page citations; added **SHA-256 duplicate detection** and persistent chat history.

CERTIFICATIONS

- **Python Fundamentals** **Sep 2024**
